

## Norbeck Society Newsletter, October 2022

### Dear members and friends

Here is a brief update for October activities – please join us for the annual picnic at Steamboat Rock on Oct 15 – we already have nominations for office-bearers, but if you would like to serve, please let me know or come along to learn of opportunities.

### Calendar: Membership Outings, Programs, Projects, and Volunteering:

- September 17: Beth Burkhart led a trip to observe Wind Cave surface waters – 11 participants, including 8 humans and 3 bison!
  
- **October 15, 11am: Annual Norbeck Society Potluck Picnic and Annual Meeting - at Steamboat Rock Recreation Area, Nemo Road.**
  - Annual report will be given, and elections for office-bearers, and we are planning a special presentation.
  
- **October 27, 6 pm: Norbeck Society monthly meeting – Greg Schroeder on “Wind Cave Surface Water Management”**

This presentation will discuss the history of surface water management and associated riparian areas at Wind Cave including research and monitoring, large grazer management, climate impacts, and management focus. Think about questions for Greg Schroeder’s presentation. You can bring questions to the zoom meeting or email them to Beth Burkhart beforehand.
